

Global Water Promise

2016-17

Annual Report

THANKS TO YOU,

2016-17 we celebrated our first milestone as we had just begun to provide clean water to developing nations. Our first project was conducted in two remote villages in Haiti. We provided families with mini water filtration systems.

This project galvanized our initiatives to reach the millions of people around the world affected by water poverty. In addition to MINI Water filters, we want to reach millions of people each quarter by providing water well drilling.

With your continued support of our organization, we can help give people a chance at a quality of life with proper water, sanitation and hygiene

MISSION AND VISION

The mission of Global Water Promise is to provide safe drinking water to people in developing nations.

Water poverty cannot end until people in marginalized communities have access to decent toilets, hygiene, proper sanitation for schools and water management for women.

Our focus is on: providing sustainable solutions for adequate water resources.

Global Water Promise

SWANI DUBUISSON

FOUNDER/CEO

Dear Friends,

Welcome to Global Water Promise.

Our mission is to end global water poverty. We want to provide people in developing nations with access to safe, sustainable water resources and improve the lives of people with clean water, sanitation and hygiene.

Since 2005, I have been studying the global water crisis. More than 844 million people around the world do not have access to safe drinking water (WHO/UNICEF joint monitoring Programme (JMP) Report 2017).

2.3 billion People do not have decent toilets (WHO/UNICEF joint monitoring Programme (JMP) Report 2017).

Our annual report will highlight our 2016-17 work in Haiti. We helped two communities in Haiti with mini water filtration systems. These MINI filtration systems are ideal for filtering dirt and removing 99.99999% of all bacteria, such as salmonella, cholera, and E.coli.

We believe that #waterislife and that every person deserves clean water resources to sustain healthy lives.

Thank you

Swani Dubuisson

THANKS TO YOU,

2016-17 we celebrated our first milestone as we had just begun our organization to provide clean water to developing nations. Our first project began two remote villages in Haiti where we gave families mini water filtration systems.

This project galvanized our initiatives to reach the millions of people around the world affected by water poverty. We can reach millions of people each quarter by providing water well drilling.

With your continued support of our organization, we can help give people a chance at a quality of life.

Our Impact: Water, Sanitation and Hygiene

Water Filtration

In 2016 and 2017, Global Water Promise visited Port Au Prince Haiti and provided families in two villages with MINI Water Filtration kits.

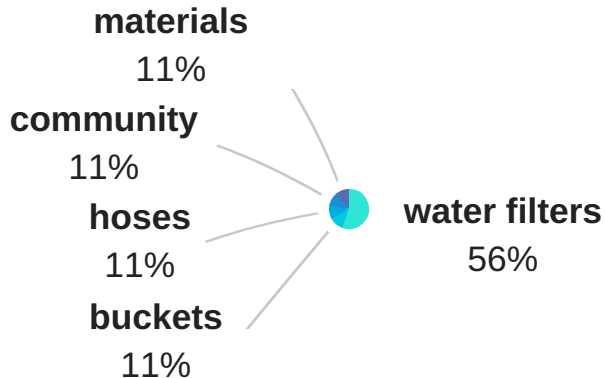

GLOBAL WATER PROMISE FINANCIALS

Our annual details our projects in parts of the world and show you how your support is making a lasting difference around the world.

Thanks to the incredible support from fundraisers, policy makers and local partners, we're making a significant contribution the global water crisis.

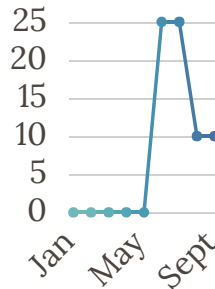

ALLOCATION OF EXPENSES

We allocated funds for water filtration project in Haiti.

SOURCES OF REVENUE

Our sources of revenue came from crowdfunding and individual sponsorship.
